DETAILED ACTION

REASONS FOR ALLOWANCE

This Office Action has been issued in response to the remarks filed March 20th 2007.

Applicant's arguments have been carefully and respectfully considered, and are

persuasive to the examiner.

The following is an examiner's statement of reasons for allowance:

Independent claims 1, 8, 11, and 14 are allowable over the prior art of record

for the remarks to each independent claim as set forth on pages 2-4 of the response

received 3/20/2007. As such, each of the dependent claims is allowable.

Additionally the limitations, or iterations thereof found in each independent

claim, of "...wherein the collision detect circuit sets a collision flag when a collision

condition is detected in any of the at least two ports, the collision flag providing an

indication that any of the at least two ports may have read or written corrupted data." in

combination with all other limitations found in each of the independent claims present

claims 1, 8, 11 and 14 in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the

payment of the issue fee and, to avoid processing delays, should preferably accompany

the issue fee. Such submissions should be clearly labeled "Comments on Statement of

Reasons for Allowance.

Relevant Prior Art Cited by the Examiner

United States Patent No. 6,915,400 (Engelahardt) discloses in column 1, lines 34-36 (also column 1, lines 42-46) teachings that appear similar to the claim language of "...wherein the collision detect circuit sets a collision flag when a collision condition is detected in any of the at least two ports" found in the instant application. However, Engelahardt does not disclose this teaching in combination with all other limitations found in each of the independent claims.

CONCLUSION

Direction of Future Correspondences

Any inquiry concerning this communication or earlier communication from the examiner should be directed to Horace L. Flournoy whose telephone number is (571) 272-2705. The examiner can normally be reached on Monday through Friday 8:00 AM to 5:30 PM (ET).

Important Note

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Reginald G. Bragdon can be reached on (571) 272-4204. The fax phone numbers for the organization where this application or proceeding is assigned is (703) 746-7239.

Information regarding the status of an Application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published
